INTRODUCTION

Accurate Technologies Company Limited is the global leader in manufacturing laundry equipment for the industrial sector, boasting the widest range of products worldwide. Our manufacturing facility has expanded from 2.5 acres to over 17 acres (70,000 square meters), making it the largest state-of-the-art facility for laundry equipment production globally. We export to more than 75 countries across the world.

Image offers a comprehensive selection of commercial and industrial laundry equipment to meet all laundry needs. We provide the most extensive product line available from a single source. Our product range includes Washer Extractors, Tumble Dryers, Coin-Operated machines, Flatwork Ironers, Feeders, Folders, and Tunnel washing systems.

We are committed to delivering superior products and services to meet our customers' needs. Image products are certified by international standards such as CE, ETL, ISO 9001, ISO 14001, ISO 13485, and ISO 45001. We use reliable raw materials and employ state-of-the-art manufacturing methods in building our machines.

Our products maintain high standards while being offered at affordable prices. We strive to exceed our customers' expectations with our products and services.
